Yenhung,

Thank you so much!! This should be very helpful to guide the level of detail in our own application.

Please note that Beau Gentry will now be leading Aera's Class VI permit application – I am retiring from Aera on Thursday!! 😊 I do regret that I won't be able to work with Region 9 on this exciting project, but I am looking forward to having more time to pursue my other passions!

Best,

Susan

Ho, Yenhung shared a folder with you

Hi Susan,

Per our last meeting discussion, we're providing in this sharedrive folder a copy of our most recent technical comments on a Class VI permit application to you as examples. Please let me know if you have any difficulty accessing the folder.
